

Easy upload

TEMPTRACER CRADLE 2

Data upload without installation at receiving site

The TempTracer Cradle 2 is an accessory to the electronic temperature data logger TempTracer. The Cradle 2 is available in two versions; One version with start and stop buttons that can start and stop a TempTracer mission without the need of a computer; Another version without start and stop buttons, which stops a TempTracer mission when plugged into a computer USB port. Both create a HTML link, displaying the result on a web dashboard when connected to a computer.

Key Features

The TempTracer with attached Cradle 2 creates a USB temperature logging device that does not require any installation at recipient.

The world's leading temperature management solution

When you use TSS loggers you also get access to our cloud temperature management software. It delivers big data-driven analytics, and documents end-to-end visibility of drugs as they move through the supply chain. It's used by leading life science companies to reduce distribution costs, meet compliance and deliver drugs safely and sustainably to patients.

TEMPTRACER CRADLE 2	
Type	TempTracer Accessory USB device
Operating Range	-40°C to + 85°C
Internal Memory	400 kb
File generation	HTM file for direct upload to web
Temperature Format	Celsius
Compliance	Cradle 2 <i>with</i> start & stop buttons: RoHs / CE Cradle 2 <i>without</i> start and stop buttons: RoHs / CE / IATA DGR (no battery in device)
Security	Configured to only operate with customer specific TempTracer data logger and database
Virus protection	When connected to computer, the cradle formats the file system sector in the device (deleting all files), before the computer detects the device. This way it is not possible to spread virus through the cradle
User instructions	A message up to 2000 characters can be generated in a separate user instructions text file
Weight	Approximately 23 grams
Measurement	Length 80mm x Width 43mm x Thickness 16mm
Housing	ABS plastic with stainless steel USB connector and aluminium interface
Traceability	Unique 10 character ID number

About TSS

TSS is a world-leading supplier of temperature monitoring solutions. For the past 20 years we have been helping life science companies to ensure drugs are safe on delivery. Our cloud analytics solution has been developed together with world-leading pharmaceutical companies and is a key component of a risk-based approach to managing the supply chain.
