

Secure Gateway for Data Transfer

TSS T-Connector

Securely transfer shipment data

The TSS T-Connector provides a secure method of downloading and uploading mission data to and from the TempTracer2, TempTracer3 and TempTracerH.

Key Features

The TSS T-Connector can be attached to any PC or laptop. It instantly shows any excursions during a shipment on a user's screen.

Keeps shipment data safe

The TSS T-Connector ensures only those with the right hardware can download encrypted data from a TempTracer and upload it to the cloud for analysis.

The world's leading temperature management solution

When you use TSS loggers you also get access to our cloud temperature management software. It delivers big data-driven analytics, and documents end-to-end visibility of drugs as they move through the supply chain. It's used by leading life science companies to reduce distribution costs, meet compliance and deliver drugs safely and sustainably to patients.

T-CONNECTOR	
Type	TempTracer Accessory USB device
Operating Range	0°C to +70°C
Traceability	Unique 16-character ID number that allows for absolute traceability

About TSS

TSS is a world-leading supplier of temperature monitoring solutions. For the past 20 years we have been helping life science companies to ensure drugs are safe on delivery. Our cloud analytics solution has been developed together with world-leading pharmaceutical companies and is a key component of a risk-based approach to managing the supply chain.
